Contents of the preceding issues

Vol. XX, No. 1, 1970
Women in the age of science and technology
Women in space, by Valentina TERESHKOVA-NIKOLAYEVA.
Feminine intellect and the demands of science, by Eleanor E. MACCOBY.
The possible biological origins of sexual discrimination, by Lionel TIGER.
Women in science: reminiscences and reflections, by Kathleen LONSDALE.
Women and work (I): Feminine emancipation at an impasse, by Mária MÁRCUS.
Women and work (II): Social attitudes and women's careers, by Riita AUVINEN.
Women and work (III): The effects of technological change, by Madeleine GUILBERT.
Women and technology in developing countries, by Barbara E. WARD.

Vol. XX, No. 2, 1970
The scientists riposte
Humility and duty in science, interview with Alfred KASTLER.
Engineering in the humanistic tradition, by Harold A. FOECKE.
Five scientists view the impacts of technology, by C. H. WADDINGTON, Norton GINSBURG, Thomas F. MALONE, Kenneth MELLANBY and J. S. WEINER.
Science in the unity of culture, by Miroslav HOLUB.
Fragmentation in science and in society, by David BOHM.

Vol. XX, No. 3, 1970
Quality versus quantity
Quantity versus quality in scientific research (I): The special case of developing countries, by Jorge A. SABATO.
Quantity versus quality in scientific research (II): The paper explosion, by G.-A. BOUTRY.
Television: mass demand and quality, by Martin ESSLIN.
Qualitative and quantitative aspects of nutrition, by A. A. POKROVSKY.
The quantity-quality relationship in environmental management, by Gerardo BUDOWSKI.

impact

of science on society

Vol. XX, No. 4, October-December 1970

Potential advances in man

	The editor comments	251
Thaddeus Mann	Reproduction (I): Sex, drugs and ethics	255
Alfred Jost	Reproduction (II): Human control of reproductive processes	267
Robert L. Sinsheimer	Genetic engineering: the modification of man	279
Rem Petrov	Organ transplantation: problems and perspectives	293
Alex Comfort	The prolongation of vigorous life	307
Stanley C. Ratner	The transfer of learning: where we stand	321
John G. Truxal and Ludwig Braun	Bio-engineering: the body as machine	333
Ralph S. Mosher	Robots that are extensions of man	349

AN INVITATION TO READERS

Reasoned letters which comment, pro or con, on any of the articles printed in *Impact* or which present the writer's views on any subject discussed in *Impact* are welcomed. They should be addressed to the Editor, *Impact of Science on Society*, Unesco, Place de Fontenoy, 75 Paris-7e (France).

Requests for permission to reproduce articles published in *Impact* should be addressed to the Editor.
